## CRO-TOX

**INSURE YOUR SEED CORN AGA  
ATTACKS OF CROWS AND PHEAS.**

All growers of seed corn are rapidly realizing the fact that crows, pheasants, birds and other corn-pulling birds and mal pests are causing havoc and damages to corn while it is germinating, sprouting and rooting, and that protection must be given growing corn during stage. Thus, the ever-increasing demand for an efficient remedy to combat this mendous loss has prompted the research, development and perfection of our "Tox" Repellant.

Small can treats 1 bushel of corn, \$1 10  
Large can treats 2 bushels of corn, \$1 65
